Maybe even better than free.

The cost of that data transfer is covered by your internet service or the data plan on your phone. You don't need any special software installed to be able to download your files. Any file in any format can be uploaded and downloaded for free. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. Keep your files private, or send your download links only to friends or family. We have no file size limit. You can upload any type of file (movies, music, documents, images, zip files and more). Simply upload yourfile and share the link. You decide who you want to share your files with. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. So try our free and simple filehosting service now. You can give this download link to your friends by mail or instant messenger. File is free to usewith no gotchas and no hidden fees. There are no restrictions on the number of times a file can be downloaded. Unfortunately, we can't make that part free. Justupload the file you want to share with your friends and we send you a download link to your file. Why pay storage fees for a file that you just wanted to send toa friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. No account or credit card is required toget started. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer orphone and our servers, then from our servers to your friends device. It is also allowed to link to the download page from websites and communities. Files can be downloaded from any computer from our high speed servers. Alternatively you can choose to share your download links on blogs, forums and socialnetworking sites. Using file, you can circumvent those limits without paying to upgrade your team chat service. If only we could, we surely would! On the otherhand, using file can actually save you money. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. filehostingprovides an easy possibility for you to send large files to your friends.
