filehosting provides an easy possibility for you to send large files to your friends. So try our free and simple filehosting service now. You can give thisdownload link to your friends by mail or instant messenger. Files can be downloaded from any computer from our high speed servers. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Unfortunately, we can't make that part free. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You decide who you want to share your files with. Ourservice is completely free for everyone. You can upload any type of file (movies, music, documents, images, zip files and more). File is free to use with nogotchas and no hidden fees. Just upload the file you want to share with your friends and we send you a download link to your file. The cost of that data transferis covered by your internet service or the data plan on your phone. If only we could, we surely would! On the other hand, using file can actually save youmoney. We have no file size limit. No account or credit card is required to get started. Keep your files private, or send your download links only to friends orfamily. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that canbe transferred within their apps. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Any file in any format can beuploaded and downloaded for free. There are no restrictions on the number of times a file can be downloaded. Your wallet will be none-the-lighter! Just sowe're all 100% clear here:

When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to yourfriends device. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Using file, you can circumvent those limits withoutpaying
