Maybe even better than free.

You can upload any type of file (movies, music, documents, images, zip files and more). There are no restrictions on the number of times a file can be downloaded. Using file, you can circumvent those limits without paying to upgrade your team chat service. Unfortunately, we can't make that part free. You decide who you want to share your files with. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. filehosting provides an easy possibility for you to send large files to your friends. Simply upload your file and share the link. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Files can be downloaded from any computer from our high speed servers. If only we could, we surely would! On the other hand, using file can actually save you money. You don't need any special software installed to be able to download your files. So try our free and simple filehosting service now. File is free to use with no gotchas and no hidden fees. It is also allowed to link to the download page from websites and communities. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. We haveno file size limit. Alternatively you can choose to share your download links on blogs, forums and social networking sites. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. Our service is completely free for everyone. Keep your files private, or send your download linkonly to friends or family. No account or credit card is required to get started. Files transferred the old-fashioned way tend to pile up and be forgotten about,eventually costing you money in data storage fees. Just upload the file you want to share with your friends and we send you a download link to your file. Anyfile in any format can be uploaded and downloaded for free. You can give this download link to your friends by mail or instant messenger. The cost of that datatransfer is covered by your internet service or the data plan on your phone.
