Alternatively you can choose to share your download links on blogs, forums and social networking sites. Any file in any format can be uploaded and downloaded for free. We have no file size limit. You can upload any type of file (movies, music, documents, images, zip files and more). It is also allowed to link to the download page from websites and communities. You decide who you want to share your files with. Unfortunately, we can't make that part free. File is free to use with no gotchas and no hidden fees. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you moneyin data storage fees. There are no restrictions on the number of times a file can be downloaded. This is easy, fast and reliable filehosting! You don't need anykind of premium-accounts. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred betweenyour computer or phone and our servers, then from our servers to your friends device. Our service is completely free for everyone. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. filehosting provides an easy possibility for you to send large files to your friends. Using file, you can circumvent those limits without paying to upgrade your team chat service. So try our free and simple filehosting service now. If only we could, we surely would! On the other hand, using file can actually save you money. Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. Just upload the file you want to share with your friends and we send you a download linkto your file. Simply upload your file and share the link. You don't need any special software installed to be able to download your files. You can give this download link to your friends by mail or instant messenger. No account or credit card is required to get started. The cost of that data transfer is covered b
