Maybe even better than free.

So try our free and simple filehosting service now. Using file, you can circumvent those limits without paying to upgrade your team chat service. File is free to use with no gotchas and no hidden fees. Our service is completely free for everyone. You can give this download link to your friends by mail or instant messenger. Files can be downloaded from any computer from our high speed servers. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Just upload the file you want to share with your friends and we send you a download link to your file. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Any file in any format can be uploaded and downloaded for free. Keep your files private, or send your download links only to friends or family. Simply upload your file and share the link. There are no restrictions on the number of times a file can be downloaded. Unfortunately, we can't make that part free. We have no file sizelimit. It is also allowed to link to the download page from websites and communities. You don't need any special software installed to be able to download yourfiles. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. No account or credit card is required to get started. Ifonly we could, we surely would! On the other hand, using file can actually save you money. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. You decide who you want to share your files with. filehosting provides an easy possibilityfor you to send large files to your friends. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is beingtransferred between your computer or phone and our servers, then from our servers to your friends device. Alternatively you can choose to share your downloadlinks on blogs, forums and social networking sites. You can upload any type of file (movies, music, documents, images, zip files and more). The cost of thatdata transfer is covered by your internet service or the data plan on your phone.
