Files can be downloaded from any computer from our high speed servers. We have no file size limit. Any file in any format can be uploaded and downloadedfor free. So try our free and simple filehosting service now. File is free to use with no gotchas and no hidden fees. Just upload the file you want to share withyour friends and we send you a download link to your file. Unfortunately, we can't make that part free. If only we could, we surely would! On the other hand, using file can actually save you money. You can upload any type of file (movies, music, documents, images, zip files and more). You decide who you want toshare your files with. You don't need any special software installed to be able to download your files. filehosting provides an easy possibility for you to sendlarge files to your friends. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Your wallet will be none-the-lighter! Just so we're all100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Our service is completely free for everyone. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat appshave limits to the size of files that can be transferred within their apps. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. It is also allowed to link to the download page from websites and communities. When you use file, you avoid storing the file you're sending in your cloudstorage or mail server. No account or credit card is required to get started. Keep your files private, or send your download links only to friends or family. Youcan give this download link to your friends by mail or instant messenger. Simply upload your file and share the link. Using file, you can circumv
