It is also allowed to link to the download page from websites and communities. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. If only we could, we surely would! On the other hand, using file can actually save you money. The cost of that data transfer is coveredby your internet service or the data plan on your phone. Unfortunately, we can't make that part free. You can upload any type of file (movies, music,documents, images, zip files and more). You don't need any special software installed to be able to download your files. There are no restrictions on the number of times a file can be downloaded. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storagefees. Just upload the file you want to share with your friends and we send you a download link to your file. Why pay storage fees for a file that you just wantedto send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. No account or credit card isrequired to get started. filehosting provides an easy possibility for you to send large files to your friends. Simply upload your file and share the link. You decidewho you want to share your files with. We have no file size limit. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file,data is being transferred between your computer or phone and our servers, then from our servers to your friends device. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. You can give this download link to your friends by mail or instant messenger. So try our free andsimple filehosting service now. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Using file, you cancircumvent those limits without paying to upgrade your team chat service. Files can be downloaded from any computer from our high speed servers. Keep y
