Simply upload your file and share the link. You can upload any type of file (movies, music, documents, images, zipfiles and more). File is free to use with no gotchas and no hidden fees. No account or credit card is required to get started. You decide who you want to share your files with. You don't need any special software installed to be able to download your files. It is also allowed to link to the download page from websites and communities. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Just upload the file you want to share with your friends and we send you a download link to your file. Any file in any format can be uploaded and downloaded for free. filehosting provides an easy possibility for you to send large files to your friends.
