The cost of that data transfer is covered by your internet service or the data plan on your phone. Just upload the file you want to share with your friends and we send you a download link to your file. You don't need any special software installed to be able to download your files. Our service is completely free for everyone. If only we could, we surely would! On the other hand, using file can actually save you money. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Keep your files private, or send your download links only to friends or family. No account or credit card is required to get started. It is also allowed to link to the download page from websites and communities. Any file in any format can be uploaded and downloaded for free. You decide who you want to share your files with. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Files transferred the old-fashioned way tend to pile up and be forgottenabout, eventually costing you money in data storage fees. You can upload any type of file (movies, music, documents, images, zip files and more). We have nofile size limit. Files can be downloaded from any computer from our high speed servers. This is easy, fast and reliable filehosting! You don't need any kind ofpremium-accounts. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device. Using file, you can circumvent those limits without paying to upgrade yourteam chat service. filehosting provides an easy possibility for you to send large files to your friends. You can give this download link to your friends by mail orinstant messenger. So try our free and simple filehosting service now. When you use file, you avoid storing the file you're sending in your cloud s
