Maybe even better than free.

You decide who you want to share your files with. The cost of that data transfer is covered by your internet service or the data plan on your phone. Using file, you can circumvent those limits without paying to upgrade your team chat service. If only we could, we surely would! On the other hand, using file can actually save you money. You can give this download link to your friends by mail or instant messenger. We have no file size limit. You can upload any type of file (movies, music, documents, images, zip files and more). So try our free and simple filehosting service now. It is also allowed to link to the download page from websites and communities. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Our service is completely free foreveryone. Just upload the file you want to share with your friends and we send you a download link to your file. Files can be downloaded from any computerfrom our high speed servers. filehosting provides an easy possibility for you to send large files to your friends. No account or credit card is required to getstarted. There are no restrictions on the number of times a file can be downloaded. Simply upload your file and share the link. Any file in any format can beuploaded and downloaded for free. Unfortunately, we can't make that part free. Why pay storage fees for a file that you just wanted to send to a friend orcolleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You don't need any special software installed tobe able to download your files. Keep your files private, or send your download links only to friends or family. File is free to use with no gotchas and no hiddenfees. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. When you use file, youavoid storing the file you're sending in your cloud storage or mail server. Alternatively you can choose to share your download links on blogs, forums andsocial networking sites. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device.
