Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Simply upload your file and share the link. It is also allowed to link to the download page from websites and communities. You decide who you want to share your files with. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. If only we could, we surely would! On the other hand, using file can actually save you money. There are no restrictions on the number of times a file can be downloaded. filehosting provides an easy possibility for you to send large files to your friends. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. The cost of that data transfer is covered by your internet service or the data plan on your phone. File is free to use with no gotchas and no hidden fees. Using file, you can circumvent those limits withoutpaying to upgrade your team chat service. So try our free and simple filehosting service now. Any file in any format can be uploaded and downloaded for free.

Unfortunately, we can't make that part free. You can give this download link to your friends by mail or instant messenger. Alternatively you can choose toshare your download links on blogs, forums and social networking sites. Files can be downloaded from any computer from our high speed servers. You canupload any type of file (movies, music, documents, images, zip files and more). You don't need any special software installed to be able to download your files. Keep your files private, or send your download links only to friends or family. Our service is completely free for everyone. Why pay storage fees for a file thatyou just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Your walletwill be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and
