Maybe even better than free.

It is also allowed to link to the download page from websites and communities. So try our free and simple filehosting service now. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Unfortunately, we can't make that part free. Justupload the file you want to share with your friends and we send you a download link to your file. Our service is completely free for everyone. There are norestrictions on the number of times a file can be downloaded. File is free to use with no gotchas and no hidden fees. Your wallet will be none-the-lighter! Just sowe're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to yourfriends device. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. We have no file size limit. You decide who you wantto share your files with. Files can be downloaded from any computer from our high speed servers. Simply upload your file and share the link. Alternatively youcan choose to share your download links on blogs, forums and social networking sites. You can give this download link to your friends by mail or instantmessenger. filehosting provides an easy possibility for you to send large files to your friends. If only we could, we surely would! On the other hand, using filecan actually save you money. The cost of that data transfer is covered by your internet service or the data plan on your phone. You don't need any specialsoftware installed to be able to download your files. No account or credit card is required to get started. Using file, you can circumvent those limits withoutpaying to upgrade your team chat service. You can upload any type of file (movies, music, documents, images, zip files and more). Keep your files private, orsend your download links only to friends or family. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps. Any file in any format can be uploaded and downloaded for free. When you usefile, you avoid storing the file you're sending in your cloud storage or mail server.
