Maybe even better than free.

No account or credit card is required to get started. Our service is completely free for everyone. You can upload any type of file (movies, music, documents, images, zip files and more). It is also allowed to link to the download page from websites and communities. Keep your files private, or send your downloadlinks only to friends or family. Files can be downloaded from any computer from our high speed servers. Alternatively you can choose to share your downloadlinks on blogs, forums and social networking sites. So try our free and simple filehosting service now. There are no restrictions on the number of times a filecan be downloaded. You don't need any special software installed to be able to download your files. Why pay storage fees for a file that you just wanted to sendto a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Just upload the file you want toshare with your friends and we send you a download link to your file. We have no file size limit. You can give this download link to your friends by mail orinstant messenger. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device. Using file, you can circumvent those limits without paying to upgrade yourteam chat service. The cost of that data transfer is covered by your internet service or the data plan on your phone. Simply upload your file and share the link.filehosting provides an easy possibility for you to send large files to your friends. Unfortunately, we can't make that part free. Any file in any format can beuploaded and downloaded for free. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You decide who you want to shareyour files with. File is free to use with no gotchas and no hidden fees. When you use file, you avoid storing the file you're sending in your cloud storage or mailserver. If only we could, we surely would! On the other hand, using file can actually save you money. Files transferred the old-fashioned way tend to pile upand be forgotten about, eventually costing you money in data storage fees.
